Journal of Gastroenterology and Hepatology (1994) **9**, 672–679

Subject Index to Volume 9

abdominal carcinomatosis; and prostatic carcinoma 277
Abstracts
  Australian Gastroenterology Week A73
  International Symposium on Peptic Ulcer from Experimental Approaches to Clinical Uses A1
  IXth Biennial Scientific Meeting Asian Pacific Association for the Study of the Liver A19, A57
  3rd Commonwealth Conference on Diarrhoea and Malnutrition A123
acid secretion, gastric; and endogenous nitric oxide S45
actin; role in gastric mucosal restoration 325
adaptive cytoprotection
  against ethanol-induced gastric lesion formation 492
  mechanistic pathways of S24
adenomas, colorectal; incidence of Paneth cells in 286
aetiological factors; of peptic ulcer S93
AIDS; and gastroenterological diseases (Review) 291
alanine aminotransferase; in chronic hepatitis C 242, 587
albumin synthesis and transport; effects of colchicine on 257
alcohol, chronic administration; liver injury in rats induced by 250
alcohol dehydrogenase activity, hepatic; and ethanol consumption (Brief Comm.) 205
alcoholic cirrhosis; HCV markers in 381
alcoholic hepatitis; and thrombocytopenia associated with platelet-associated immunoglobulin G (Case Report) 527
alpha 2-macroglobulin–trypsin complex; and severe acute pancreatitis 272
amino acids, branched-chain; in mild hepatic encephalopathy 366
ammonium ion; and gastric mucus gel layer S13
amoxycillin; and gastric cytoprotection in the rat 514
antibiotics, prophylactic; with endoscopic retrograde cholangiopancreatography 55
anti-HCV
  in chronic HCV infection 242
  incidence in Nantong area, China 245
  quantification of core antibodies 217
anti-inflammatory drugs, non-steroidal
  and gastric mucosa S104
  nitric oxide-releasing S40
  and peptic ulcer S93
anti-M2 auto-antibodies; in primary biliary cirrhosis 7
antimitochondrial antibodies; in primary biliary cirrhosis 7
anti-neutrophil cytoplasmic antibody; in primary sclerosing cholangitis 40
antisecretory drugs; in gastric and duodenal ulcers S88
anti-ulcer drugs
  human epidermal growth factor as S78
  screening of S60
antiviral effect; of lymphoblastoid interferon-alpha on HCV 128
appetite; stereospecific effects of tryptophan on 557
ascites
  malignancy-related, diagnosis of 396
  massive, total paracentesis in non-alcoholic cirrhotics with 592
ascitic fluid; in diagnosis of malignancy-related ascites 396
Asian gastroenterological clinic; compared to Western 124
atropine pretreatment; and adaptive cytoprotection 492
Australia; hepatology in 638
autocrine growth factors; in cholangiocarcinoma cell line 462

  effectiveness of ursodeoxycholic acid in 162
primary hepatic lymphoma; in a patient with chronic hepatitis C (Case Report) 308
primary infection; with HCV in blood transfusion recipients 211
primary sclerosing cholangitis; anti-neutrophil cytoplasmic antibody in 40

prognosis, long-term; of liver cirrhosis in the 1980s 154
proliferating activity; of intrahepatic cholangiocarcinoma 442
proliferating cell nuclear antigen-positive cells
  in HCC 425
  in intrahepatic cholangiocarcinoma 442
prostaglandin E_2
  in gastric cytoprotection S29
  jejunal release of, in Crohn's disease 539
prostaglandins
  and mechanisms of adaptive cytoprotection S24
  and pepsin damage S55
  synthesis, gastric, and non-steroidal anti-inflammatory drugs S40
prostatic carcinoma; in abdominal carcinomatosis 277
prothrombin time ratio; and liver biopsy bleeding time 269
protozoa; and AIDS diarrhoea (Review) 291
proximal small bowel resection; and pancreatic hyperplasia 576

R–R interval variation; in liver cirrhosis 232
ranitidine; versus omeprazole in gastric ulcer 118
reflux oesophagitis; and treatment with sucralfate (Curr. Clin. Practice) 401, (Review) 412
regeneration of liver; and 'stem' cells 250
relatives, first-degree; of patients with Crohn's disease 539
renal failure; and peptic ulcer S20
reovirus serotype 3 infection; in infants with extrahepatic biliary atresia or neonatal hepatitis 264
research prospects; for hepatology 631–650
resection, proximal small bowel; and pancreatic hyperplasia 576
restitution; in an *in vitro* model of wound repair of gastric lesions 325
restriction fragment length polymorphism; as subclinical marker for combined gastric body and duodenal ulcers 334
retroperitoneal tumour; laparoscopic observation of (Case Report) 198
ribavirin treatment; of chronic hepatitis C 587

scintigraphy, per-rectal portal; and relationship between endotoxin antibodies and portal haemodynamics 138
screening, mass; for HCC in Hokkaido, Japan 361
secondary infection; with HCV in blood transfusion recipients 211
sepsis; with endoscopic retrograde cholangiopancreatography 55
serum pancreatic enzymes; and recognition of severe acute pancreatitis 272
serum-ascites albumin gradient; in diagnosis of malignancy-related ascites 396
severe acute pancreatitis; early recognition of 272, (Editorial) 289
sexual transmission; of HCV 468
shockwave lithotripsy, extracorporeal; and gallstone clearance 452, 597
silymarin; a putative hepatoprotective agent 250
simvastatin; effect on bile composition and gall-bladder emptying 447
Singapore; peptic ulcer in elderly in 278
site-protection; by sucralfate (Curr. Clin. Practice) 401, (Review) 412
small bowel ischaemia; in Fabry's disease (Case Report) 201
small bowel resection; and pancreatic hyperplasia 576
smoking
  effect on ulcer healing S66
  and peptic ulcer S93
South Africa; hepatology, education and research in 643
spontaneous bacterial peritonitis; with non-alcoholic liver cirrhosis 433
Sri Lankan alcoholic cirrhosis patients; HCV markers in 381
'stem' cells; in liver regeneration 250
stereospecific effects of tryptophan; on gastric emptying and hunger 557
steroids, oral contraceptive
  and growth of focal nodular hyperplasia (Case Report) 521
  and portal vein thrombosis (Letter) 314
stomach; HCC invasion of (Case Report) 533
stress; and peptic ulcer S93
sucralfate
  Bangkok review (Review) 412
  in clinical practice (Curr. Clin. Practice) 401
  and pepsin damage S55
suction cytology; in diagnosis of carcinoma oesophagus 564
sulfhydryl blocker-induced colitis; and immunological changes in thymus gland and colonic mucosa 544
Sun Yat-sen lecture; surgical treatment of duodenal ulcer (Special Lecture) 172
superoxide dismutase; effect of zinc therapy on, in inflammatory bowel disease 472, (Editorial) 519
surgery, hepatic; current state and future prospects of 648
surgical treatment; of duodenal ulcer (Special Lecture) 172

T lymphocyte function; and malignant biliary obstruction 391
Taiwan; early gastric cancer in 344
thrombocytopenia
  and chronic hepatitis C (Case Report) 99
  and platelet-associated immunoglobulin G in alcoholic hepatitis (Case Report) 527
thrombosis, portal vein; associated with oral contraceptive steroids (Letter) 314
thymus gland; in sulfhydryl blocker-induced colitis 544
thyrotropin-releasing hormone; cytoprotective action of S29
transcatheter arterial chemo-embolization
  adverse effects on portal tracts after 45
  and portal vein invasion 1
transfusion, blood
  HCV following 19, 211
  and hepatitis (Brief Comm.) 416
transjugular liver biopsy; comparison with percutaneous 457
transmission, intrafamilial; of HCV 13
transplantation, hepatic
  and anti-neutrophil cytoplasmic antibody 40
  and oxidative stress 385
treatment; of patients with tissue-proved cholangiocarcinoma 134
trimethadione, oral; effect on pancreatic stones 478
tropical pancreatitis syndrome; and cassava consumption 282
tropical sprue; and lymphocytic (microscopic) colitis (Case Report) 105
tryptophan, stereospecific effects of; on gastric emptying and hunger 557
tumour, carcinoid; and intestinal ischaemia (Case Report) 304
tumour, retroperitoneal; laparoscopic observation of (Case Report) 198
tumour cell invasion, interstitial; in small HCC 604
tumour markers; in diagnosis of malignancy-related ascites 396
tumour size; in HCC 425
tumour types; in intrahepatic cholangiocarcinoma 442

ulcer; and blood flow, contractions and ischaemia–reperfusion (Editorial) 652
ulcer, duodenal
  and diet (Review) 177
  dynamism of cytoprotective and antisecretory drugs in S88
  and gastric ulcer combined 334

healing and recurrence of S84
and *Helicobacter pylori* S8
and migrant workers (Letter) 663
surgical treatment of (Special Lecture) 172
treatment with sucralfate (Curr. Clin. Practice) 401, (Review) 412
ulcer, gastric
and duodenal ulcer combined 334
dynamism of cytoprotective and antisecretory drugs in S88
and/or prepyloric; omeprazole and ranitidine in 118
treatment with human epidermal growth factor S78
treatment with sucralfate (Curr. Clin. Practice) 401, (Review) 412
ulcer, kissing gastric; for screening of anti-ulcer drugs S60
ulcer, peptic
aetiological factors of S93
bleeding, treatment for 64, (Editorial) 69
clinical relevance of basic research in S99
in elderly in Singapore 278
and *Helicobacter pylori* 501, S4
in hepatic cirrhosis and renal failure S20
therapeutic strategies for S104, S109
ulcerative colitis; and anti-neutrophil cytoplasmic antibody 40
ultrasonography; in screening for liver cancer 361
urokinase plasminogen activator receptor; chromosomal assignment of 340
ursodeoxycholic acid; effectiveness of, in primary biliary cirrhosis 162
USA; current status and problems in hepatology in 632

vaccination, hepatitis A and B; immune response after 228
vagus
and adaptive cytoprotection 492
and gastric cytoprotection S29
variceal bleeding
in cirrhosis, plasma endotoxin and endotoxin-binding capacity in 582
oesophageal, role of spontaneous portosystemic shunts in 236
variceal ligation, endoscopic; oesophageal perforation following (Case Report) 659
vasodilation, peripheral; relationship to prolonged bleeding time in cirrhotics 437
Vibrio cholerae; and diarrhoea (Review) 186
Vietnam, Ho Chi Minh and Hanoi; HCV and HBV in (Brief Comm.) 416
viraemia; in chronic HCV infection 242
viruses; and AIDS diarrhoea (Review) 291

Western countries; early gastric cancer in 344
Western gastroenterological centres; compared to Asian 124
wound repair, gastric; *in vitro* model of 325

zinc therapy; in inflammatory bowel disease 472, (Editorial) 519
